Solar Energy

7.1.2 In Order To Save Energy Following Are Used:

- Use of solar energy – our college has solar panels installed on the roof top of our women's hostel building.
- Use of LED bulbs – the LED bulbs are used in the principal room, office room, class room, library, inside and outside the college.
- Use of Generator – our college uses the power generator as an alternative energy source.
- Use of UPS- UPS is used in computer lab, library, and office.
- Use of water boiler- water boiler usage in women hostel is to get hot water for bath.
