**FOR WOMEN**  
**ILKAL**

**7.3 – Institutional Distinctiveness**

**7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust:**

More female students are from rural areas. The college strives to work in accordance with its vision and mission. Most of the parents who are village farmers continue to follow old traditions in the ever-changing environment of liberalization, privatization, and globalization. In order to strengthen the power of women on a broad basis and bring each village back on track, the college staff worked hard to persuade, motivate and promote higher education, especially for girls. In this context all village farmers and illiterate people in neighboring villages are aware of the level of higher education and the restrictions imposed by the state and the central government. This has led to an increase in the number of students from rural areas, even if the college is located in the city the uniqueness of this college lies in our respected president His Holiness “GURU MAHANT SWAMIJI is committed to promoting higher education in key locations in Karnataka although all this has attracted the attention of villagers illiterate and farmers. Because of their religious background they succumbed to their daughters to continue studying instead of dropping out of school early and marrying their daughters out. The distinguished president founded our college for female students giving students the opportunity to educate and train all their family members, which will be a great force in our country. One of the best college experiences all students have is the parenting of college faculty the history of college blues students.

- In this taluk ours is only one women’s college that encourages rural women to pursue higher education.
- Our institution is a ray of hope in realizing the dream of higher education.
- To encourage Indian tradition culture we celebrate cultural day in which our college students present traditional dance, folk songs.

- Our college is located very close to the bus stand. Which helps their students to come to the college on time.
- Even though our college is in rural area we provided inter net, campus Wi-Fi, smart classrooms.
- We conducted extra co-curricular activities.
