Solar Energy

- Use of solar energy – our college has solar panels installed on the roof top of our women's hostel building.
- Use of LED bulbs – the LED bulbs are used in the principal room, office room, class room, library, inside and outside the college.
- Use of Generator – our college uses the power generator as an alternative energy source.
- Use of UPS- UPS is used in computer lab, library, and office.
- Use of water boiler- water boiler usage in women hostel is to get hot water for bath.

Solid waste management

Solid Waste Management or Segregation of Waste

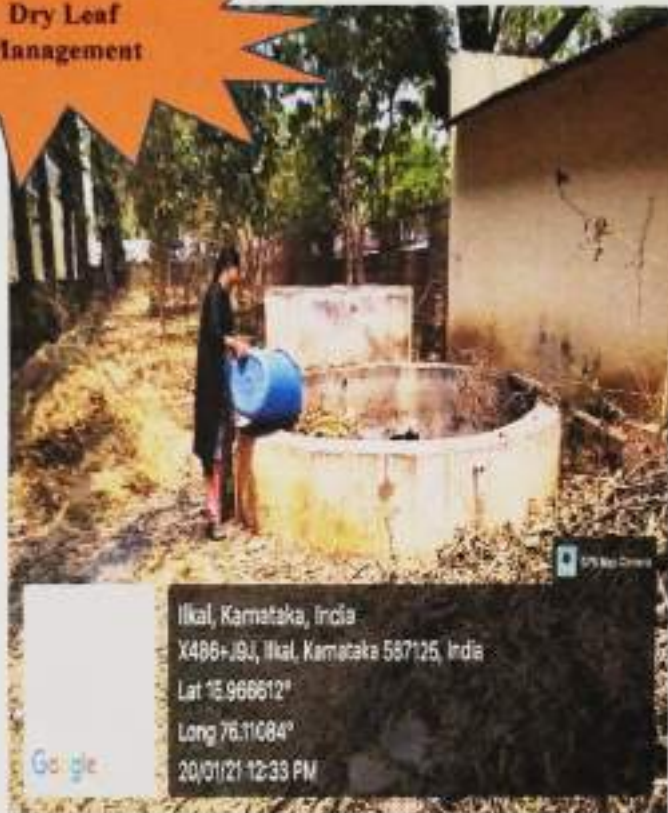

- The campus ensures the cleanliness through the use of dustbins in the premises, the classrooms and the rest rooms.
- Dry leaf management is in our campus.
- The posters are displayed in the college regarding maintenance of the waste.
- City municipal, Ilkal carries the accumulated waste at regular intervals.
- The e- waste such as UPS and batteries are replaced by new batteries.
- We use discharged water from filter to the garden.

E- Waste management

Our college has been using computers for many years. There is software system in office, principal chamber and library, and we have a separate computer lab which consists of 16 computers for student purpose. We have 4 computers with printer in office room, 1 computer with printer in library and 1 computer with scanner in principal chamber.

The computer, key board, mouse and batteries, UPS etc. which are not working all come under the E-waste management. The computer, key boards, UPS, batteries, mouse, etc. which are not working properly are replaced by new ones.

Our college has made MOU of E- waste management with our neighbors S.J.G.M. I.T.I college which is also run by the same management, S.V.M. VidyaVardhaka Sangha, for 5 years of period from 2016-17 to 2020-21 for the purpose of re-use on nonprofit policy because our college and ITI college are under same management.

The MOU agreement is made for the term of 5 years in a 100rs valued bond, under certain conditions.
