E-Governance

E Governance means the governance with information technology. The institution aims to provide the concept of e governance and its implementation in college effectively. The propose of implementing e governance is to enhance good governance. E-Governance helps in improving administrative efficiency and public services in all the aspects of education. The institute has adopted e- governance which includes computerization and management processes such as registration, admission, student information, class time table, attendance, library, salary and expenses, examinations, performance, and reports. E Governance solution in the college has changed the way administration is being done now. The solution is designed to make the system user friendly, time saving and cost saving also. Many of them are flexible enough to adapt to the changing educational environment efficiently and quickly. E Governance helps the existing capacities and forward looking.

E Governance is an important tools to the governing body the institute in general is provides following advantages to the administration.

E Administration:- I involves the use of ICT and E-Governance in order to improve administration processes and the internal working of the departments within an educational organization.

E Services:- The main aim to improve the delivery of services to students by providing interactive services. Examples are online admission, online syllabus, online results etc.

Advantages:

1. It empowers students and parents to gather information regarding the course, college, department, government policy and get involved in the process of decision making.
2. Optimizes performance in decision making.
3. I may help E Governance for efficient administration, cost reduction and timely decision.

   The following ICT tolls have been adopted in our college to bring efficiency in administration.

Biometric attendance system:

Helps to identify quickly and accurately when someone takes a long break, arrive late or leave early, and not even arrive at all. Biometric attendance helps the principal to make the attendance ot employees completely transparent. I saves time of the Principal to check it manually. The employees have to punch their finger when they come or leave the college. Their presence in the college for the day is automatically calculated by the system. When the Principal needs to know any thing about time and attendance, he can quickly and easily download a comprehensive report form the machine.

Enhances:

Increased efficiency for employees maintenance.

Profectors: The college has installed projectors in classes to check how many of the staff members.

CCTV: It helps in E-Governance by ensuring students safety, Teachers safety, prevention of anti social behavior, allows only authorized visitors. It also protects campus property, helps in finding the misbehaviors in the college, Through CCTV app our Principal check whether the classes were running or not according to scheduled time-table.

Website:

Helps to give complete information regarding the institution to the stake holders.

Whatsapp-group:

Group communication can drive connectivity and allow for interaction at all levels. It is a really useful tool to encourage creativity, ideas and suggestions form all team members. Our principal has created class-wise Whatsapp group to give messages relating to college information such as admission, examination, scholarship, any college event etc. It helps to communicate the students. The messages even when they are not in class.
