Amazon Alexa

Alexa is Amazon's voice-based AI-powered digital assistant that powers an entire smart device ecosystem. It can replay to simple queries and perform various tasks or commands that one gives. Also, it provides entertainment, information. And general assistance to its users with its AI capabilities.

Alexa to play music, provide sports scores, cheek the weather or news updates, communicate with friends and family, read emails and more.

1. Play songs.

2. Find nearby restaurants and order food online.

3. Check movie flowtimes or sports schedules.

4. Track your amazon packages.

5. Get news updates.
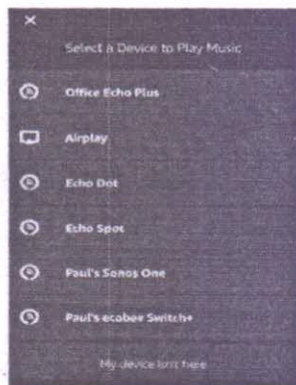

6. Have Alexa read you your emails.

How do you set up Alexa?

Step 1: download and open the Alexa app on your android or iOS device

Step 2: from the lower corner, select devices

Step 3: now press the plus sign that is in the top right corner
