## FEEDBACK REPORT 2023-24

The feedback report on curricular aspects was collected from students, faculty and alumni and was analyzed by the Internal Quality Assurance Cell (IQAC).

The students were asked many questions regarding syllabus covered, teachers' approach, their capability, their support and encouragement to students etc. The teaching learning process has been considered to be good to excellent by more than 95% of the students. There were very good responses on preparedness of the teachers, syllabus covered, student centric methodology, their support and encouragement. Students expressed their appreciation by giving very good opinion about the teachers and the institution.

Some faculty has suggested improving the syllabus that creates interest among the learners. Employability and proficiency in rendering the jobs should be taken into consideration while framing the syllabus. Many teachers have suggested enabling the students to study according to their interests. Once they select the subjects in the beginning of the course, they cannot change the subjects in the next years. Academic flexibility should be ensured to motivate the students to change at least one subject in the beginning of the odd semester. 75% of the teachers have satisfied with the syllabus prescribed, whereas others suggested changing the syllabus according to the changing global requirements. Skill based courses should be introduced.

Alumni were asked questions regarding syllabus, its relevance, employability etc. Out of total responses nearly 65% of students are doing either Government or private jobs. They are satisfied with the programme outcome. More than 90% of the students have opined that the syllabus is good enough but some students have recommended framing the syllabus relating to employability skills.

The employers were asked many questions regarding relevance of the course, adequacy of syllabus, competency level of our students etc. They opined that KSWUB has framed the syllabus according to the need of the society but the courses were not based on industry need. Many alumni of our college have been appointed in different institutions of our society in various hierarchies. The management members opined that their proficiency, knowledge, communication skills are really good and contributing to the successful operation of our society. They advocate that the syllabus need to change to provide up to date knowledge to the upcoming students to face the global challenges. They proposed that the government needs to take a bold step to introduce NEP syllabus to impart knowledge and skill to the future students.
